Money, Women, Intestines... It's said there is a man rampaging through the underground world with a squirming lust for those things. That man is only a boy for now, with cool-headed thoughts, cool-headed discards. He's known as "Ice Cold K" in the underground, yet it's rumored that he's keeping a girl in his home.

[Story so far] The theoretical player, Kei, is playing against the "Wave" reading, intuitive player Dojima. The destined two finally have the match they were waiting for. The rate is [Han x Fu x 10,000 Yen] (Yakuman is 15 han, with stacking Yakus allowed) with the money being paid in cash immediately. The first game Kei was dominating, getting more and more money from Dojima. However, Dojima turned it around with a single hand worth 43,200,000 Yen. All of Kei's 50,000,000 melted within an instant to a mere 6,000,000...
